

Dear friends,

We would like to offer you a concert by the orchestra Bona Nota Pardubice.

The Chamber String Orchestra BONA NOTA is an instrumental ensemble that comprises both amateur and professional musicians, people of various professions. What connects them is love of music which is both their job and hobby.

The orchestra was established in Pardubice in February 1999. Its repertoire consists mainly of the works by old Czech and world composers. The orchestra takes part in concerts and festivals not only in its region, but also in other parts of the Czech Republic. Since it was established, the orchestra has had the opportunity to perform in Germany and Slovenia. One of the greatest achievements is the victory in its category in the competition Concerto Bohemia 2001.

Over the last few years, the orchestra has collaborated with the violin player Bohuslav Matoušek <http://www.bohuslavmatousek.cz/> . After agreement, it is possible to perform a mutual concert with this artist

Since the year 2012, the orchestra has focused on playing Baroque and early Classicist music. Based on the repertoire, the orchestra has also changed its image - it plays in Baroque costumes.

The orchestra performs in historical churches and chateaus. Very popular are Advent concerts, concerts performed during events such as „Noc kostelů“, but also traditional May concerts or spring concerts.

As the orchestra company is quite small, the requirements for organizing a concert are not very demanding.
